California Academy of Mathematics and Science (CAMS)
Expected Graduation: June 2019
GPA: 3.9

Employment

Addis Media   Owner
Performed freelance web design work for a variety of clients, including individuals and organizations. Upon request, I would confirm a design with the client and proceed to develop the website.

-Commonly used: HTML/CSS, Bootstrap, and Javascript.

Projects

Yami   Aug 2016 to Current
-Developed style of design that emphasizes usage of colors to display information
-Created a CSS Framework to implement it
-Used SASS, and HTML/CSS

CareerSail   Sep 2016 to Current
-Created a web application that displays information about careers given a query
-Styled according to Google's Material Design spec.
-Developed with Node.js, Express.js, jQuery, and HTML/CSS

AllScan   Jul 2016 to Current
-Developed a chrome extension built for detection of phishing pages
-Created algorithm that analyzes URLs of pages for evaluation of the safety of the website
-Used Javascript, jQuery, and the Chrome Extension API
